Editor's Note

Editors' Note

First and foremost, we would like to thank all of the students who submitted their research papers for consideration in St. John Fisher College's *Undergraduate Review*. It is because of student support that this journal is possible. The overwhelming number of submissions we received this year made the decision process very difficult. With that said, we would like to congratulate those whose papers were chosen for this year's edition.

Students submitted papers from a wide variety of academic disciplines that included History, Chemistry, Religious Studies and English. Topics as diverse as renewable energy, immune system responses, and facial recognition technology are discussed in this volume. The depth of research and hard work put into each of these papers will be apparent to every reader of the *Undergraduate Review*.

We hope that you enjoy each of the selections chosen for this edition. On a personal note, we have thoroughly enjoyed serving as co-editors to this journal. This has been a wonderful experience, and we are honored to have had the opportunity to contribute to this journal of excellence.

Nicole Briand and Britney Buscaglia
