the rafter roof

Up to rafter roof

the rafter of brindled brogen wood
is beneath (with well-touching arms
with wall-clutching arms)

and shoulders the slaten slabs.
is it the rafter that makes the mosaic
in the multimused mottled magic
or does being beneath the sun in the sky shed shade
 overs and light lifting the land?
but here with hoof on rafter on rafter
don down dawny darkness dispelled

and toute tremblance with soon sun
and here best seen the blest scene
of seam of sky and scan.
