Andrysiak: You never write nonsense...

You never write nonsense,
You just haven't figured out what
You're trying to tell yourself yet.

I don't understand a lot of things,
I don't understand when a light bulb burns out,
is the light just kidding?
I don't understand those black boxes on
airplanes that make it through crashes that
blow the rest of the plane to bits,
I don't understand why they don't make the whole damn
plane out of that stuff? And I sure
don't understand what happens when your foot falls asleep,
but what I have heard is that
your foot goes into a coma so that
you would never have known that
that little black box was there then and
if light were able to kid, that would be pretty cool
because then flashbacks wouldn't be so alarming
cause it would just be the light.

Kidding.
