Ship it to Me!: Evaluating Interlibrary Loan Services for Distance Students

Abstract
Starting in Fall 2013, St. John Fisher College's Lavery Library began providing Interlibrary Loan services to doctoral students at its two recently established satellite campuses, the College of New Rochelle (CNR) and Onondaga Community College (OCC). Although students from both campuses received loans at their homes through UPS delivery, the campus' locations originally resulted in two different return procedures: patrons affiliated with CNR returned items through UPS, while an OCC staff member collected return items and drove them back to our library. Although this model worked well at the beginning, an increase in requests and differences in procedure resulted in confusion among patrons and staff relating to communication, extremely overdue materials, and renewal policies. After one academic year, our library reassessed our procedures and policies to improve internal workflows, better serve our patrons, and align with ILL best practices. Knowing that consistency and excellent communication with patrons is vital to a successful resource sharing program, we began by streamlining procedures for both campuses to utilize UPS return shipping. We also changed internal workflows, retooled overdue notices and policies, and became more proactive in educating distance patrons about the policies and benefits of using ILL. Since incorporating these changes and increasing succinct communication, distance students have been more responsive and mindful of our relationship with other resource sharing libraries, and feedback has been very positive. In the upcoming year, we are implementing the more cost-effective UPS CampusShip into our workflow, expanding ILL to include distance faculty, and continuing to look for ways to better serve the needs of our patrons.

Summer 2014: Assessment

- Waited one academic year before assessing
- New staff joined in Spring 2014
  - Opportunity to revamp policies/procedures before training began
2014 Procedure Assessment: What Worked

- What worked:
  - ILLiad workflows
    - Custom routing between Borrowing/Doc Del
    - Custom statuses (OCC, CNR)
    - Use of Doc Del for distance student processing only
  - Shipping to patrons through UPS
  - Return shipping via UPS for CNR students
Procedure Assessment: What Didn’t Work

● Checking Fisher owned items out to patrons’ accounts in Sierra
  ○ Duplicate overdue notices with different due dates
  ○ Patron-initiated renewals created due date inconsistencies between ILLiad and Sierra

● Return procedure for OCC patrons
  ○ No formal return schedule
  ○ Difficulty for patrons to drive to OCC bookdrop
Procedure Assessment: What Didn’t Work

● Barcode covers not apparent/stable enough
  ○ Fisher owned loans checked in into Sierra only, not ILLiad

● Inability to track UPS return shipments for CNR students
  ○ Reliant upon Bookstore

OCC Student | TN# 149823

Student workers: Do not check in.
Give to supervisor upon return!
Procedures That Didn’t Work: Solutions

- **Challenge:** Checking Fisher owned items out to patrons in Sierra
  - **Solution:** Check Fisher owned items out to ILL Account in Sierra

- **Challenge:** Return procedure for OCC patrons
  - **Solution:** Streamline return procedures and provide UPS return shipping labels for both OCC/CNR
  - Required an adjustment period for OCC
Procedures That Didn’t Work: Solutions

● **Challenge:** Barcode covers not stable/apparent enough
  ○ **Solution:** Add neon green bookstraps under barcode covers

● **Challenge:** Inability to track UPS return shipments for CNR students
  ○ **Solution:** Discussed options with bookstore, set aside for later review
2014 Policy Assessment: What Worked

- What worked:
  - Renewals: patrons emailed ill@sjfc.edu to renew (option in overdue notices)
  - Opportunity for communication
  - Requesting Fisher-owned items through ILL rather than coming to campus

● What didn’t work:
  ○ Lack of distance student overdue policy = extremely late returns
    ■ First year with new service led us to wait on policy development
    ■ Distance shipping makes campus overdue policy unrealistic
    ■ General overdue notice was sent multiple times
      ● Lack of response

  ○ Lack of communication/understanding of resource sharing
Policies That Didn’t Work: Solutions

● **Challenge:** Lack of overdue fine policies for ILL
  ○ **Solution:** Created fine policy for all ILL student patrons
    ■ Blocked in 7 days email warns of hold on Fisher account, replacement invoice, $10 overdue fee
    ● If library accepts late return, $10 overdue fee remains

  ○ **Solution:** Created overdue notice structure for distance students
    ■ Explanation of importance to return on time
Policies That Didn’t Work: Solutions

● **Challenge:** Lack of communication/understanding of resource sharing
  ○ **Solution:** More frequent communication
    ■ 1 courtesy notice with option to renew
    ■ Overdue notices with option to request again
  ○ **Solution:** Clarified ILL policies concisely within emails, on website, and on Libguide
  ○ **Solution:** Updated [Libguide](link included in emails) to enhance usability
Findings

● Positive patron (and staff) response

● 272 loans shipped to distance students as of 7/27/2015
  ○ 104 were items owned by Fisher
  ○ 168 were borrowed through ILL from 76 different libraries

● Shipped to 21 different CNR students and 27 different OCC students
New Opportunities

- Implemented UPS Campus Ship in Spring 2015
  - Ability to track shipments
  - Direct return to library rather than bookstore
  - Saves ~$6.00 per loan
    - Cost analysis in FY16

- Provided availability of ILL services to Faculty at OCC/CNR

- Piloting return packaging service on-demand for when students visit campus

- Ready to expand to other satellite programs when needed
