Tedone: Untitled

It's a cold gray November day  
and I'm walkin' all alone  
The sound of the leaves beneath  
As I walk the street

Covers the sound of my heart breaking  
Like the rain covers my mood

I have a picture of you in my mind  
An image of warmth and love from a time gone by  
I still remember the sound of your voice  
The warm caress of your touch

I'm here waiting for you, and I won't let go  
I still remember before, and I promise you won't forget tonight

I never knew

I never knew pain, 'til I was forced away from you

I never knew

I never knew loneliness, 'til I woke without you by my side

Evening approaches and I'm scared to see you

What will I say, what will I do?

I have some things in mind, but I'm nervous too

I miss you so much, I just can't wait for that plane to land

I'm staring at the sky, waiting for my angel to come

When she arrives, I'll take her to heaven

It's been so long since the last time

It's been hell without you

Only my dreams of you give me pleasure

Never again will I let you leave like that

I'll follow if you go, no matter where you lead

I never want to be left alone again

I never knew

I never knew pain, 'til I was forced away from you

I never knew

I never knew loneliness, 'til I woke without you by my side

I stare out at the window, up at the sky

And this lovely dream fades from my mind

I sit and I wonder about things I never knew

I dream all the time about things I'll never know

I never knew

I never, never knew

I never knew love, until I knew you
