place into words that feeling
when a star bright as the sun
that’s been burning inside you
hiding
suddenly starts to spin
triggered by only one
and spreads throughout your body that light
to your fingers, toes, lips and nose
gleams out of every pore
and when you round the corner
and see that one
that thing that starts
in the pit of your belly
and flickers
shudders, flutters, tingles
all over
and makes your face feel numb
and your heart squeezed out a bulge of light with each pump
it’s that star
triggered by that one
the pleasant burning light

is that a sufficient
description
of that feeling?
Because when I see that one
I can feel a star inside me growing
Glowing

so yes, that must be right
and I love to feel that light
triggered by that one.
